

Our Visit to Walducks Farm in Stewkley – 24.05.17

This term we visited a farm to see how the lambs had grown since they came to visit us at school in March.

We started the day with watching 'Tewe' the Border Collie round up the sheep and lambs from one of the fields.

Henry, the Farmer gave 'Tewe' instructions and she was so well-behaved.

We explored the different parts of the farm and Robert showed us a combine harvester. It was huge! He told us how hard farmers work today and long ago.

Robert also showed us how the sheep are kept cool in the summer months and we watched a sheep being sheared – it was a very tricky job! We had such an interesting day at the farm – thank you, Mary, Jane, Oonagh, Henry and Robert.
